EXECUTIVE DIRECTOR'S REPORT:

Mr. Corby: Thank you Mr. Chairman, a number of things:

You have accepted a statement of accounts this evening. We had said, in previous meetings, that we would have LIC books reviewed by the township auditors. That was done in November & December. We have established a new procedure: that the LIC reports to the CFO and that’s overviewed further by the township auditors. This reestablishes the procedures that should have been in place. Each month now we are required to report to the CFO in terms of the balance of our accounts so it will be tracked in a more professional manner than we have been doing previously. Also, at the next LDC-Lakewood Development Corporation meeting we will be moving forward with respect to the airport hazard zone, getting a road to start establishing areas where the Commission can start earning income on (bus storage and other things we have previously discussed). We hope that will be moving along at the LDC meeting on February 7th. Also, you find in your packages today, an article that’s being distributed with respect to ethics. I think
all of us have a new understanding; the public is much more aware of ethical standards, which perhaps have never been talked about before. It talks about the confidentiality of board members and their roles. This piece will also be distributed to the members of the LDC so that we can get an understanding of what is to be expected of every Commissioner or Director in terms of ethics. I hope you get an opportunity to read that. The budget that will be before you tonight, there is only one correction- on the resolution 060111 which deals with Public Relations Consultant on your agenda it says not to exceed $51,000.00 on the agenda- on the resolution its “not to exceed” $43,000.00. Finally we have the consent agenda where we again established that we would do things under the “fair open process” in terms of selections of professionals. You should know that we went through the process. Requests for proposals and qualifications were posted on the web-site, we went through an official opening of the sealed proposals and it was all done last Tuesday in compliance with the law. We received two proposals. Any questions?

Mr. Golub: I have a question. The CFO… any questions that he would have, would be channeled through you. Is that correct?

Mr. Corby: In terms of the auditors, actually it would probably be directed to the manager and then the manager would direct it to me.

Mr. Golub: Ok I’m ok with that.

Mr. Corby: That’s it Mr. Chairman and congratulations.

ATTORNEY’S REPORT:

Mr. Delanoy: Thank you Mr. Chairman and welcome. On the agenda this evening I have the matter of Goldstone Management. For those of you that would recall this is the piece of property, Mr. Doyle this is new to you. The piece of property is located on Cedar Bridge Avenue, west of the Parkway, next to Jesel. We did receive a proposal for the construction of a 20,000 square foot catering/banquet hall. The Commissioners did agree to propose a contract which we have done. We forwarded same to the attorney for Goldstone (Charles Mandell, Esq.) and we did receive a response that is attached to your package this evening. The letter from the attorney, basically, is looking for a couple of things. In our contract, we are basically giving them a six month period of time to procure an easement to access the property through Cedar Bridge Avenue. At the time, we ask them to come to a closing, once they have procured their easement. Subsequent to that, they have six months to obtain a building permit and a year to complete construction after that. The letter that is attached to your package basically shows what they would prefer to do, which would be to continue the 6 months to obtain an easement for access, but then they are seeking to have a year to close. So what they looking to do is to delay the closing pending their obtaining permits and approvals and of being given the option of having additional time if necessary to be granted from the Commissioners. That’s the change. Everything else seems to be acceptable to them. So the question comes down to whether or not you want to have them close immediately after the six month period to obtain an easement. Or do you want to give them, after the easement is obtained, an additional period of one year to obtain the permit and then close at the time?
Discussion followed regarding this matter. In conclusion, the Commissioners agreed to approve their request of the contract language change; have 6 months to get an easement and proceed to get approval- 1 year, plus have the opportunity to get 2 extensions of 6 months each.

Motion by Mr. Albert/Dr. Eisenberg to approve Goldstone Management’s request [to change the contract terms to reflect what Goldstone requests in their correspondence].

The above motion hereby being duly adopted by the Lakewood Industrial Commission

Mr. Golub: Nothing new the Hotel, everything still status quo?

Mr. Delanoy: Still everything is status quo.

Mr. Corby: Mr. Chairman, they are due to come back to our February meeting to report on their status.

Mr. Cunliffe: Through the Chair, I’m not sure what they are going to be able to come back and report. I, as I had promised this committee to do, I would contact the owner of the property across the street (Town and Country Shopping Center) Mr. Steiner, and I got a lot of “yes, yes, yes” but at the end of the day, from my understanding with my conversation with Mr. Tajfel, and then with the conversation with Mr. Coles- who is on the MUA, Mr. Steiner is not really going to cooperate. They are now talking about going to the Parkway and asking them if they can come along the Parkway. If they can come along the Parkway for an easement for the line or coming up Shorrock Street… Either way, I don’t know if that is going to make the project financially feasible. It is a tremendous run. If we try to force the issue through the MUA to take what we think is ours… anyway, Mr. Steiner’s attorney just said they would just tie this up in court for years and years. So we have a piece of property that has serious problems with water and sewer.

Mr. Corby: Through the Chair, if I may, and maybe Mr. Delanoy can help us here, once there is a “taking” is that taking effect immediately?

Mr. Delanoy: No, it can be challenge, and that is what he is saying and it can take up years.

Discussion followed regarding this matter. In conclusion, the Commissioners decided to wait until the February 22nd meeting where Hotels Unlimited will expected to give an official update on several issues including the DOT & CAFRA and the options for the
sewer and water including possible accesses from the west through the Bennett property; 
the access from Steiner through McDonalds; the access through up Shorrock, down Rt. 
70 and across 70; and the 4th option to purchase service from Brick.
