EXECUTIVE DIRECTOR’S REPORT:

Mr. Corby: In your folders you have an ordinance that was adopted by the Township Committee authorizing the transfer the tract known as the Northeast Parkway Acquisition Area of some 13 acres. I do have some remarks to make, but they should be kept for executive session because we do have an interested party and there are some issues that I would like everyone to know about before we start negotiations. The same with Hotels Unlimited - there are some issues there. The progress we made was to grant them the right to construct another pad site (3). Hotels Unlimited came back to us and regarding the proposed client for the third pad, I will try to explain the circumstances with respect to getting clients for the pad. I would like to keep that matter for executive session as well. Regarding Block 1608, Lot 2, which is the Cedar Bridge Avenue, I haven’t heard from the interested party there.

Mr. Albert: This tract of land that is east of the Garden State Parkway, that we are acquiring now, if you look at the map it shows an extension to Shorrock Street from Rt. 70 north, I’ve been wondering whether or not that’s going to be vacated or are they ever going to build the extension [extending Shorrock Street].

Mr. Corby: I don’t have a specific answer, but I do know that we have plot here, there is a wetland area which prohibits building road through to Route 70. The current plan for the intersection is to have the Parkway Authority’s jughandle come to the intersection that’s all outside of the wetlands, I have not heard anything else to date.

ATTORNEY’S REPORT:

Mr. Delanoy: Block 1603, Lot 2.01 is the property located on the northeast corner of New Hampshire and Cedarbridge Avenues. They (Sommers and Stamos) were here several months ago. As you may recall, they requested that we vacate the vegetative easement or buffer area along the roadway to allow access to the tract from both New Hampshire Avenue and Cedar Bridge Avenue. We agreed, in principal and in concept, to do that. Subsequent to that time, they did send us documentation that was not in accordance with what we agree to do. I wrote a letter back to the attorney, Donna Thomson, advising her of the fact that there were inaccuracies with what was presented versus what we had agreed to. I have not gotten a response from them so I recently sent another letter stating that we still hadn’t heard from them and that we would not go on the record
before the [Lakewood] Planning Board as being in support of this unless we have reconciliation of the problem between the descriptions they gave us and what was presented to us at the meeting. And we will be corresponding with the Planning Board to tell them we will not support the application. So that’s where this matter stands.

**Mr. Albert:** Is there anything new with the hotel?

**Mr. Delanoy:** We continue to collect our rent money, but other than that, no.

**Dr. Eisenberg:** I want to ask you a question, I don’t remember all the facts from the last meeting, but there was supposed to be a meeting on February 7th with some alterations in the CAFRA rules.

**Mrs. Doyle:** February 7th had to do with the Manley contract and that the CAFRA regulations were changing on February 7th with regard to coastal centers.

**Mr. Corby:** Yes, this change affects everyone.

**Dr. Eisenberg:** Yes, that’s what I wanted to know, does this CAFRA matter affect residential properties in Lakewood?

**Mr. Corby:** CAFRA only applies to certain types of development, and that’s residential development over 25 units. Several years ago, they created this area as part of their Smart Growth ideas – what can be developed. CAFRA had its particular rules which were less stringent than they are in other CAFRA areas. The Commissioner is the one who lifted that designation, and there has been quite a controversy about it, not only here, but throughout the State. There is legislation moving to the Legislature that would re-establish those coastal barrier zones for two more years until the Smart Growth state plan is done. And the real confusion now is because we have this area and we removed them and the State plan and the State cross-acceptance plan is not done. So, there is this ‘void’, if you will, that just leads to a lot of confusion.
