11/26/19	12/3/19
12/17/19	1/7/20
TBD	TBD
TBD	TBD

*As per the direction of the Board, the selection of a public hearing date for any project will be made **after** the plan review meeting and **after** the Board Engineer has deemed the revised submission documents complete for purposes of public hearing. Said scheduling is largely dependent upon how quickly the applicant and project engineer submit revised plans and documents **addressing all comments** from the plan review meeting, but approximate dates can be determined by following the horizontal row following the plan review meeting date.*
